

Bumpers

A quick reference for bumper rules.

Numerical Constraints

- 6" on each side of each outside corner.
- Enclosed in the vertical volume that is 0-7 inches above the ground.
- Team numbers must be ≥ 4 in.
- ≤ 20 lbs
- Backed by $\frac{3}{4}$ thick and $5 \pm \frac{1}{2}$ in. tall plywood.
- May not extend > 1 in. from frame perimeter
- Must use stacked pair of $2 \frac{1}{2}$ pool noodles.
- Any gap between backing material and frame:
 - Less than $\frac{1}{4}$ deep or,
 - Not more than 8in. wide
